

# Did you know... About your Animache African animals?

Jaws attack! Well just try holding the mouth shut...

While **crocodiles** have strong jaw muscles, they cannot open their mouth if it held closed. Captain Hook should have just kept his hands around the crocodile's mouth then! Africa is home to the world's smallest crocodile, the West African Dwarf Crocodile which only grows to 190cm in length and the largest, the Saltwater Crocodile, is the earth's largest reptile.

Will that be one hump or two?

A **dromedary**, also known as an Arabian Camel, is native to Africa & Asia and differs from a camel in that it only has 1 hump on its back. Accommodating animals, dromedaries will kneel for the loading of passengers or cargo, although they are commonly used for racing.

## ADOPTION CERTIFICATE

Do not forget to register your animal with the petit artisan Club so that it can be part of the Animache family.

To register your animal, you just need to complete the information card at the back and send it to us, or register on the petit artisan website on [www.petitartisan.com](http://www.petitartisan.com)

**If you send us a drawing or a picture of your Animache toys you may also win some new animals to play with!**
