

Did you know... About your Animache herbivore dinosaurs?

Can you imagine a bus having an engine the size of a walnut?

The **Stegosaurus**, although the length of a bus, had a brain that was about the size of a walnut!

What do you call an animal that charges like a rhinoceros but has more horns?

The **Styracosaurus** had 7 horns, 6 of which were on its neck. It charged like a rhinoceros at a speed of up to 20mph!

It can bite through solid bone, but was it covered in scales or feathers.
